BaByliss FOR men®

SUPER BEARD

Define your style and maintain your look everyday with the ultimate in beard trimming.

The BaByliss for Men Super Beard has 15 ultra-precise length settings, so you can maintain your perfect beard. Whether you're looking for long stubble or a bushy beard the Super Beard is the perfect tool to help define your style. Accurately change the length setting from 1-15mm using the dial control and use the length-lock feature to secure it in place to guarantee an even cut. Enhanced lithium technology for advanced cutting and optimum performance, even at lower charge levels and electrochemically sharpened blades for super sharp, precise cutting.

FEATURES

- Lithium-ion power performance for reliable cordless use, even at lower charge levels
- Advanced blade technology with electrochemically sharpened blades for exceptional cutting performance
- Precision comb guide delivers ultimate length consistency and removable for easy cleaning
- Precise dial control adjusts the 15 length settings from 1-15mm
- Length-lock feature to guarantee an even cut
- LED display for selected length setting
- 5 minute quick charge
- Cordless for total convenience and control
- Shaving plug adaptor
- 3 year guarantee

SAFETY CAUTIONS

- This appliance should only be used as described within this instruction book. Please retain for reference.

IMPORTANT CHILD SAFETY

WARNING! Polythene bags over the product or packaging may be dangerous. To avoid danger of suffocation, keep away from babies and children. These bags are not toys.

IMPORTANT SAFETY

- Do not immerse the appliance in water or other liquids.
- Always inspect the appliance before use for noticeable signs of damage. Do not use if damaged or if the appliance has been dropped. In the event of damage contact the Conair Customer Care Line (refer to UK After Sales Service section for further information).
- Only use the attachments supplied with this appliance.
- Do not leave the appliance unattended when switched on.
- Do not place the appliance on any surface whilst in operation.
- Special care is required when using the appliance close to the ears, eyes and face.
- This appliance should not be used by adults whose reduced physical, sensory or mental capabilities, or whose lack of experience and knowledge, might cause a hazard, unless they have been correctly instructed to understand the safe use and hazards involved and are adequately supervised.

- Careful adult supervision is required when this appliance is used on or near children. Do not use on very young children.
- This appliance should not be used, cleaned or maintained by children. Keep out of reach of children.
- Always ensure that this appliance is kept out of the reach of children at all times, particularly during use and whilst cooling.
- Allow the appliance to cool before storing away.
- This appliance complies with the requirements of Directives 2004/108/EC (Electromagnetic Compatibility) and 2006/95/EC (Electrical Safety of Domestic Appliances).
- The battery should be removed for safe disposal at the end of its life.
- When the battery has run down, it should be disposed of at a recycling centre to safeguard the environment. If the battery leaks, avoid touching it and dispose of it at a recycling centre.

INSTRUCTIONS FOR USE

IMPORTANT : CHARGING

First time use

- The Super Beard is so easy to use, but before you do anything you must take your time to charge the unit for 3 hours before its first use. This initial super-charge ensures optimum power performance to give smooth fast trimming every time. After the first charge, a full charge will only take 90 minutes. Maximum battery capacity will only be reached after 3 charging/discharging cycles.
- Connect the power adaptor to the socket on the underside of the charging stand
- Plug the power stand adaptor into a suitable bathroom shaver socket. If you don't have a bathroom shaver socket, you can use the 3-pin plug adaptor supplied with this product. Place the 2-pin adaptor into the back of the supplied 3-pin plug adaptor and plug into an electrical socket as normal.
- When the unit is charging, a blue LED indicator starts to blink until full charge.
- When the battery is fully charged , the blue indicator stops blinking and lights up continuously.

Regular charging

- A full charge will take 90 minutes and will supply enough power for minimum 60 minutes continuous cordless use.
- When the battery is almost empty, the blue LED charging indicator starts to blink, informing you that you will soon need to charge the appliance.
- In order to maintain the optimum capacity of the rechargeable batteries, the appliance should be recharged for 3 hours every 3 months approximately.
- The Super Beard comes with a quick charge feature. A 5 minute charge will provide enough power for approximately 3 minutes use.
- Charging takes approx. 90 minutes.

Preparation for Use
Always inspect the Super Beard before use to ensure the cutting head is free from hair and debris and is running smoothly.

Operation
To switch the Super Beard on, press the I/O button, the blades should start to move and the selected length LED will illuminate. The lock and unlock LED indicator lights up in blue continuously and shows lock/unlock status of the length control wheel. To turn the appliance off, press the I/O button and the motor should stop while all LED's will turn off after 5 seconds.

Using the Length Control Wheel
- Ensure the comb guide is correctly positioned by pushing the comb guide gently downwards to secure into place.
- Use the dial control wheel to scroll "left" or "right" to adjust the comb guide to the required length.
- The cutting lengths are displayed on the LED screen in "mm" – scroll through the available length settings with the dial control wheel. 15 length settings available: 1mm - 15mm in 1mm increments.
- Select your required length – the length setting will then remain illuminated.
- Once you have selected the desired cutting length, lock the length in place for a guaranteed even cut (see Using the Length-Lock System section).
- Press the power button to switch the Super Beard on.
- If you try to adjust the dial control wheel after the length-lock has been activated, the lock LED will start to flash for 10 seconds until you unlock the dial control wheel.

Using the Length-lock System

The length-lock system ensures the comb guide does not slip during use and securely maintains your chosen length setting to guarantee an even cut.

- Once you have chosen your desired length, you can activate the length-lock system located underneath the length control wheel.
- To lock the selected length in place press the button until the lock symbol appears. An LED with the following symbol should appear 🔒.
- To unlock the length control wheel, press the button until the lock symbol disappears and the unlock LED illuminates with the following symbol 🔓

Warning: Do not force the dial length control to adjust settings or apply unnecessary pressure to the comb guide when the switch is set to the length lock position as this may cause damage to the unit.

Travel lock feature

- The BaByliss For Men Super Beard has a travel lock feature which will lock ON/OFF BUTTON from activating accidently.
- To activate the travel lock, press and hold the I/O button for 3 seconds until a green lock symbol appears. After 3 seconds the green symbol will disappear however the appliance will stay locked.
- If you press the I/O button for less than 3 seconds the travel lock symbol will appear and flash and the appliance will not turn on.
- To de-activate the travel lock, press and hold the I/O for 3 seconds, the motor switches on and starts running. The travel lock is now de-activated.
- When you place the unit in the charger, the travel lock is automatically deactivated.

Using the trimmer without the comb guide

- The trimmer can also be used for detailing/ shaping around the edge of the beard
- To remove the comb guide, turn the dial past the longest length and slowly pull the comb guide upwards and away from the trimmer body.

- Hold the trimmer upside down with the blade facing downwards, yet flat against the skin.
- Move the trimmer gently downwards in small strokes around the edge of the area you wish to outline.
- Having defined the outline, hold the trimmer with the blades pointing upwards against the direction of hair growth. This will trim the unwanted hair adjacent to the outline.
- Switch the Super Beard on by pressing the “I/O” button. The LED will illuminate and the blades will start to move.
- If you are looking for an ultra-close finish, you can use the trimmer without the comb guide. This will give you an extremely short cut.

IMPORTANT: Please note when using the trimmer without the comb guide, the cutting length will be below 1mm. The length setting shown on the LED screen will no longer be relevant when the comb guide is detached.

Super Beard Top Tips

- Use on clean, dry hair.
- If possible, when using for the first time, try and grow your facial hair for a few days before cutting. This will give you a better result, as your facial hair will feel thicker.
- Set the cutting length as required.
- It is always best to start cutting with a longer length first, then trim again if the length is longer than desired.
- Hold the Super Beard against the hair, the teeth of the comb guide should be pointing upwards and should be flat against the face.
- Move the trimmer upwards through the hair, a little at a time, against the direction of hair growth.
- The Super Beard will work most effectively when cutting through the hair at its own speed – never force through the hair. You may experience a little resistance when trimming the neck area, where hair is thicker and grows in many different directions. This is completely normal.
- Just like shaving, extra time should be given when trimming under the neck area, as again this is where hairs grow in many different

directions.
- Never switch the trimmer off whilst in the hair.

CLEANING & MAINTENANCE

- Regular cleaning will maintain the high performance of your Super Beard.
- Detach the comb guide by turning the dial past the longest length and slowly pull the guide upwards and away from the trimmer body.
- Use the cleaning brush supplied to brush away any hair and debris. Do not use a sharp object to clean the trimmer blade.
- The blades can be removed to aid cleaning.
- To remove the blades hold the handle of the Super Beard with one hand, place your thumb underneath the blades and push the blades away from the handle.
- Gently blow away any hair trapped beneath the blades.
- The blades can be rinsed under the tap. After rinsing the blades they may need to be oiled. See oiling instructions below.
- Before re-attaching blade to the trimmer, ensure the blades are dry and moving blade is in the centre. Please refer to Fig. 3.

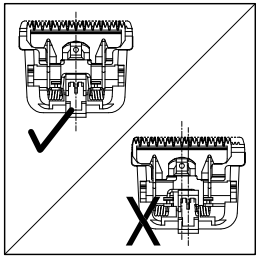

Fig. 3

- Please do not use any chemical liquids when cleaning the trimmer.
- Ensure you clean the blades after each use and before storing away.
- It is highly recommended to oil the blades from time to time with the oil provided. This ensures optimum cutting performance. For the first use you will need to use the oil supplied with the product, unscrew the cap and cut off the very end of the plastic tube with a pair of scissors to release the oil. To oil the blades ensure the unit

is switched on. Gently squeeze the oil tube and apply 2 drops of oil onto the blades. Leave the unit on for a further few seconds to allow the oil to thoroughly spread the length of the blades. Switch off the unit and remove any excess oil by gently dabbing with a cloth.

BATTERY DISPOSAL

This appliance contains Lithium-ion batteries. To protect the environment this appliance and its batteries must be disposed of safely. At the end of its life, please take this appliance to a recycling centre, where the internal rechargeable battery should be removed by a professional and recycled separately. For more information about the recycling of electrical and battery operated appliances please contact your local council office or your household waste disposal service. For specific enquiries regarding the replacement of batteries in this product please contact our Conair Customer Care Line – see “UK After Sales Service” section.

UK GUARANTEE

This BaByliss for Men appliance is guaranteed for consumer use for 3 years.

This guarantee covers defects under normal use from date of purchase and ceases to be valid in the event of alteration or repairs by unauthorised persons. If the appliance does not perform satisfactorily due to defects in materials or manufacture, it will be repaired or replaced through Conair UK After Sales Service. The Conair Group Ltd reserves the right to amend terms and specifications without prior notice.
This guarantee in no way affects your statutory rights.

UK AFTER SALES SERVICE
